# TASK EQUIPMENTS

Companion in your every TASK

**About Us**

Task Equipments was started in 2018, with a vision to ease the life of the poultry and farming industry workers and want to bring in new technology in these sectors. We, at Task Equipments, provide affordable solutions for these daily tasks.

We aim to help the unorganised sector by providing state of the arts products to maximise the company growth, deliver quality products at lower cost.

We strongly believe that using our core team strength and experience along with customer feedback, problems associated with their respective fields can be solved through innovation and research while applying core engineering principles.

**Vision**

Our vision is to provide technologically advanced, quality and affordable products / services in the field of poultry and agriculture. Which will make daily TASK of the people working in this field easier.

**Mission**

To design and develop innovative products with the help of technology and manufacture them using advanced CNC machines, to achieve the required quality and economical cost of the product.
